

Recent Publications in this Series:

10/2002 Christina Lyra

Molecular Characterisation of the Cyanobacterial Genera Anabaena, Aphanizomenon, Microcystis and Planktothrix

11/2002 Leena I. Christiansen

Preparation, Analysis and Cholesterol Lowering Effect of a Novel Microcrystalline Beta-Sitosterol Suspension in Oil and Phase Behaviour of Beta-Sitosterol with Cholesterol

12/2002 Susanna Fagerholm

Bidirectional Signalling and Phosphorylation of CD11/CD18-Integrins in T Cells

13/2002 Suvi Toivonen

Acceptor Specificity Studies of Fucosyl- and Sialyltransferases

14/2002 Eeva Sievi

Fate of Mammalian Golgi Sialyltransferases in Yeast

15/2002 Katri Mattila

Biofilms on Stainless Steels Exposed to Process Waters

16/2002 Marja Tuomela

Degradation of Lignin and Other ¹⁴C-Labelled Compounds in Compost and Soil with Emphasis on White-Rot Fungi

17/2002 Tarja Kankkunen

Controlled Transdermal Drug Delivery by Iontophoresis and Ion-Exchange Fiber

18/2002 Henri Huttunen

Role of RAGE as an Amphotericin Receptor: From Development to Disease

19/2002 Hongxia Guo

Compression Behaviour and Enteric Film Coating Properties of Cellulose Esters

20/2002 Maria Vartiainen

Regulation of Actin Dynamics in Animal Cells: the Role of ADF/Cofilin and Twinfilin

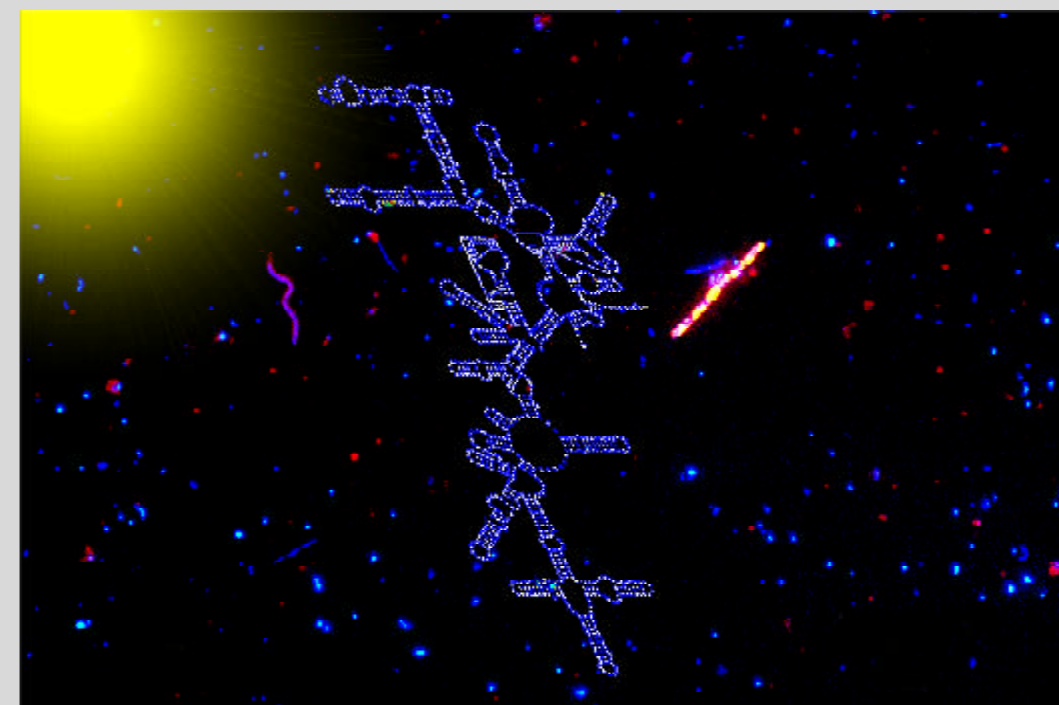

21/2002 Helena Gäddnäs

Long-Term Oral Nicotine Treatment and Daily Variations in Brain Monoamines and Motor Activity

22/2002 Michael P. Okoh

Molecular and biophysical analysis of Bruton tyrosine kinase N-terminal (PH, TH, SH3 and SH2) domains

GERMAN JURGENS Molecular phylogeny of Archaea in boreal forest soil, freshwater and temperate estuarine sediment

**Molecular phylogeny of Archaea in boreal forest soil,
freshwater and temperate estuarine sediment**

GERMAN JURGENS

**Department of Applied Chemistry and Microbiology
Division of Microbiology
University of Helsinki**

Helsinki 2002

ISSN 1239-9469 ISBN 952-10-0714-1

Dissertationes Biocentri Viikki Universitatis Helsingiensis

23/2002
